729 Resale of in-demand goods purchased by automated bots

Tabled: 2/12/21 Signatories: 1

Douglas Chapman

That this House believes that the online provision of items should be available to all customers and that items should not be bought in bulk by the use of automated bots which often circumvent maximum purchase quantities imposed by the retailer, and which subsequently distorts the marketplace by creating a scarcity thus enabling the bulk purchaser to then resell the items at grossly inflated prices above the Manufacturer's Recommended Retail Price; calls on the Government to bring forward legislative proposals similar to those introduced for the secondary selling of tickets, thereby prohibiting the resale of items at prices greatly above Manufacturer's Recommended Retail Price when purchased using automated bots; and further calls on the Government to bring forward legislative proposals making the resale of goods purchased using an automated bot an illegal activity, thereby denying unscrupulous vendors the chance to make

themselves vast profits at the expense of genuine end-use consumers, while also deterring fraudulent cybercriminal activity.

prosecuted in a criminal court; notes that former police officer John Murray, who was with Yvonne when she was murdered, and to whom he pledged that he would bring those responsible to justice, has campaigned relentlessly for justice for Yvonne for 37 years and on 16 November 2021, won an outstanding victory at the Royal Courts of Justice; notes the judgment delivered by the Hon. That this House regrets the announcement by TSB that it intends to close its Forfar Branch and in so doing completely removes the TSB name from the county of Angus after previously closing Kirriemuir, Brechin, Montrose, Arbroath & Carnoustie TSB branches; notes that this once great banking institution has served communities across Scotland for generations, upholds the need to appropriately support approximately 20 per cent of customers who still require access to traditional physical banking services; highlights that the retention of the Forfar TSB branch was set out by TSB as a rationale and justification for closing the previous surrounding branches in Angus; and calls on the Bank to urgently reconsider this proposal and instead maintain its branch in Forfar in the interests of fairness and financial equity to its customers in Angus.

That this House notes the Government's announcement on the Integrated Rail Plan for the North and Midlands on 18 November 2021; recognises the dismay of many Council Leaders, Metro Mayors

and hon. Members across the north of England at the scaling back of promises made under the original Northern Powerhouse Rail proposal; asserts that the Government, through the Integrated Rail Plan, is not delivering the extra capacity and better connectivity truly required to level-up public transport infrastructure in the north of England; further notes with concern much of the support for HS2 in the north of England was predicated on realising the full potential of the proposals under Northern Powerhouse Rail; and agrees with the calls of the respective Metro Mayors of Greater Manchester, the Liverpool City Region, West Yorkshire, South Yorkshire and the North of Tyne to revert back to the original plans set out under Northern Powerhouse Rail.

That this House recognises World Aids Day on Wednesday 1 December; highlights the difficulty those with HIV/Aids face during the covid-19 pandemic at home and abroad; notes in particular the needs of countries like Eswatini who have the highest prevalence of HIV among adults aged 15 to 49 in the world at 27.2 per cent; and urges the Government to increase aid to provide assistance to those countries with high rates of HIV/Aids and low rates of covid-19 vaccination as a matter of urgency.

That this House deplores the Government's punitive decision to remove the £20 per week Universal Credit uplift, which the Joseph Rowntree Foundation estimates leaves around 5.5 million families worse off by £1,040 per year and will push a further half a million people over the poverty line; deeply regrets that people have been plunged into greater financial jeopardy and, with energy prices surging, now face the Dickensian prospect of going either cold or hungry this Winter; shares the concern of the Royal College of Paediatrics and Child Health that the cut to Universal Credit will increase the number of children who will be disadvantaged in terms of physical and mental health, safety, and wellbeing, and will deepen structural social and health inequalities; and therefore supports Unite Community's call for the Government to reverse its cruel and callous policy by reinstating the uplift and extending it to cover those on legacy benefits in order to relieve financial anxiety, food poverty and energy insecurity.

That this House supports the town of Oban in its bid to achieve city status and become Scotland's eighth city; notes Oban's strategically important position on Scotland's beautiful west coast, connected to the rest of Scotland by a network of rail, air, road and ferry links; acknowledges the vitally important role the busy ferry port of Oban plays in being the Gateway to the Isles, providing a transit point for tens of thousands of islanders and tourists every year; recognises that as a university town, home to the world renowned Scottish Association for Marine Science and a campus for the University of the Highlands and Islands, Oban is at the forefront of pioneering aquaculture innovation and is a seat of learning for more than 1000 students; notes that with stunning scenery, some outstanding seafood outlets and a beautiful old whisky distillery in the very heart of the town, Oban is increasingly becoming a popular visitor destination; recognises that proportionally, Scotland has markedly fewer cities than the other three nations of the United Kingdom, and with a declining population in the western highlands, believes that being awarded city status will bring greater investment in to Oban and the Highlands and Islands and will help reverse the trend of declining population; and wishes the people of Oban the best of luck in their attempts to become Scotland's eighth city.

That this House congratulates Siobhan Cameron, owner of The Creel Seafood Bar, Fionnphort Pier, Isle of Mull, on winning the Best Seafood Establishment in Scotland, at The Food Awards Scotland 2021; commends the hard work of manager, Niamh Cowan, and all the staff of the Creel Seafood Bar in contributing to this outstanding success; acknowledges that The Creel only has west coast seafood on its menu and it is this, along with the friendly welcome, which has been a contributing factor in its popularity among both locals, as well as visitors to Mull, Fionnphort and Iona; notes that The Creel was originally opened in 2014 by Siobhan's mother, Alex, and her father, Andrew, and, had it not been for their hard work and determination to build the business in those early years, none of this success would have been possible; therefore thanks everyone involved with The Creel Seafood Bar, past and present, for what they have done to put this small corner of the Isle of Mull on the culinary map of Scotland and wishes them all the very best for the future.

That this House notes the reports that civil servants have been instructed to omit the term Christmas from covid messaging for the Christmas period; notes that there is no offence intended by referencing a national holiday in messaging designed to protect people throughout that holiday; and urges the Prime Minister and all Secretaries of State to remind their departments that the biggest offence to many people is not in mentioning Christmas but to attempt to remove Christ from Christ-mas.

of work; and wishes the team every success as they move on to the final awards which cover all of Britain.

722 Development of Peel Hall Site, Warrington

Charlotte Nichols

That this House condemns the decision of the Secretary of State for Levelling Up, Housing and Communities to approve planning permission for Satnam Millennium Limited to build 1,200 houses on the Peel Hall site in Warrington; notes that for over thirty years all applications to develop this site have been rejected by Warrington Borough Council and previously all subsequent appeals were rejected by successive governments; recognises the overwhelming local opposition to these plans from residents and elected representatives; fears that such development would mean loss of valued open space, increased traffic congestion, worsened air quality, adversely affected public health, reduced daily enjoyment of local lives, dramatically changed character of the area and increased pressure on local services; is astonished that the Secretary of State believes that the ecology and wildlife of the site would not be unduly harmed by the development; thanks the thousands of residents and campaigners who have fought to protect this area for so long, specifically the Save Peel Hall Campaign Group; agrees that the long-established case to protect this green open space remains overwhelming; and calls on the Secretary of State to reconsider his decision.

That this House notes with deep concern that security guards at the world-renowned Great Ormond Street Hospital for Children, who have gone above and beyond during the covid-19 outbreak to keep the hospital safe and secure, are still outsourced to a private contractor, and not employed directly by the NHS, as other facilities workers are including cleaners, caterers and porters; is appalled that they are provided with far worse terms and conditions than other NHS workers and are the only group of workers who are denied full sick pay which is of particular concern during a global pandemic; is shocked that these key workers, nearly all of whom are from BAME and migrant backgrounds, have been left with no choice but to take strike action in order to win NHS terms and conditions; is further appalled that these workers have been left with no choice but to take the hospital to an employment tribunal in a group indirect race discrimination claim; and calls on the hospital to negotiate with these workers' union United Voices of the World, and to bring these key workers into the direct employment of the NHS, giving them the full NHS contracts that they deserve.
